# Using this book

## What is a collocation?

Collocation means a natural combination of words; it refers to the way English words are closely associated with each other. For example, *pay* and *attention* go together, as do *commit* and *crime*; *blond* goes with *hair* and *heavy* with *rain*.

## Why learn collocations?

You need to learn collocations because they will help you to speak and write English in a more natural and accurate way. People will probably understand what you mean if you talk about *making a crime* or say *there was very hard rain this morning*, but your language will sound unnatural and might perhaps confuse. Did you mean that there was a lot of rain or perhaps that there was a hailstorm?

Learning collocations will also help you to increase your range of English vocabulary. For example, you'll find it easier to avoid words like *very* or *nice* or *beautiful* or *get* by choosing a word that fits the context better and has a more precise meaning. This is particularly useful if you are taking a written exam in English and want to make a good impression on the examiners. In advanced level exams, marks are often specifically awarded for the appropriate handling of collocations.

At an advanced level an appreciation of collocation can also be helpful in terms of appreciating other writers' use of language. Skilled users of the language may choose to create effects by varying the normal patterns of collocation, with the aim of either startling or amusing their audience. This technique is particularly popular with poets, journalists and advertisers. From an appreciation of the way in which creative writers play with language, you may then even want to move on to use words in more original ways yourself. You are more likely to be able to do this effectively if you have assimilated the standard patterns of language use presented in this book.

## How were the collocations in this book selected?

The collocations presented in this book were mainly selected from those identified as significant by the CANCODE corpus of spoken English, developed at the University of Nottingham in association with Cambridge University Press, and the *Cambridge International Corpus* of written and spoken English (now known as the Cambridge English Corpus). We also made extensive use of the *Cambridge Learner Corpus*, a corpus of student language which showed us what kind of collocation errors learners tend to make.

These corpora show that there are many thousands of collocations in English. So how could we select which ones would be most useful for you to work on in this book?

Firstly, of course, we wanted to choose ones that you might want to use in your own written and spoken English. So, in the unit *Health and medicine* we include, for example, **shake off a cold** and **respond well to treatment** but not **grumbling appendix**, which is a strong collocation, but one which – we hope – most of you will not feel the need for.

Secondly, we decided it would be most useful for you if we focused on those collocations which are not immediately obvious. **A pretty girl**, **a modern car** or **to buy a ticket** are all collocations, but they are combinations which you can easily understand and produce yourself without any problems. So we deal here with less obvious word combinations, for instance, **flatly contradict** (not **strongly contradict**) and **bitter enemies** (not **serious enemies**).

Some of you may have already used our *English Collocations in Use* targeted at intermediate learners. In general, we have tried to avoid focusing on collocations that we dealt with in that book. An exception is with collocations that the *Cambridge Learner Corpus* highlighted as causing frequent problems for students, even in advanced level exams. We felt that it would be useful to draw attention to such collocations again, even if we had dealt with them previously.

Idioms can be seen as one type of collocation. We deal with them separately in *English Idioms in Use*, and so do not focus on them here.

## How is the book organised?

The book has 60 two-page units. The left-hand page presents the collocations that are focused on in the unit. You will usually find examples of collocations in typical contexts with, where appropriate, any special notes about their meaning and their usage. The right-hand page checks that you have understood the information on the left-hand page by giving you a series of exercises that practise the material just presented.

The units are organised into different sections. First we start with important information relating to learning about collocations in general. Then there is a section focusing on different types of collocation. The rest of the book deals with collocations that relate to particular topics such as *Student life* or *Film and book reviews*, concepts such as *Sound* or *Difficulty* and functions such as *Cause and effect* or *Comparing and contrasting*.

The book has a key to all the exercises and an index which lists all the collocations we deal with, and indicates the units where they can be found.

## How should I use this book?

It is strongly recommended that you work through the six introductory units first, so that you become familiar with the nature of collocations and with how best to study them. After that, you may work on the units in any order that suits you.

## What else do I need in order to work with this book?

You need a notebook or file in which you can write down the collocations that you study in this book, as well as any others that you come across elsewhere.

You also need to have access to a good dictionary. At this level we strongly recommend the *Cambridge Advanced Learner's Dictionary* as this gives exactly the kind of information that you need to have about collocations. It does this both through the examples provided for each word entry and through special collocations boxes or mini-panels. Your teacher, however, may also be able to recommend other dictionaries that you will find useful.

Good modern learners' dictionaries include example sentences which make a point of illustrating each word's most frequent collocations. Enormous databases of language, known as corpora, are used to analyse speech and text to identify which words collocate most frequently. Look up the word *abject* in the *Cambridge Advanced Learner's Dictionary* and you will find the entry below. Notice how frequent collocations are used in the example sentences.

**abject** /'æb.dʒekt/ **adjective** FORMAL EXTREME 1 **abject misery/poverty/terror, etc.** when someone is extremely unhappy, poor, frightened, etc: *They live in abject poverty.* ○ *This policy has turned out to be an abject failure.* NOT PROUD 2 showing no PRIDE or respect for yourself: *an abject apology* ○ *He is almost abject in his respect for his boss.* ● **abjectly** /'æb.dʒekt.li/ **adverb**

For more information about Cambridge dictionaries and to do online searches you could go to:  
<http://dictionary.cambridge.org>

So, a study of collocation is **highly recommended** (*Unit 7*) if you want to impress people with your natural and accurate use of language and to **gain more marks** (*Unit 1*) in English exams. Above all, we hope both that this book gives you a **thirst for knowledge** (*Unit 17*) about English collocations and also that you will **thoroughly enjoy** (*Unit 7*) working through the units in *English Collocations in Use Advanced*.

## A

## What are collocations?

A collocation is a combination of two or more words which frequently occur together. If someone says, ‘She’s got *yellow hair*’, they would probably be understood, but it is not what would ordinarily be said in English. We’d say, ‘She’s got **blond hair**’. In other words, *yellow* doesn’t collocate with *hair* in everyday English. *Yellow* collocates with, say, *flowers* or *paint*.

Collocations are not just a matter of how adjectives combine with nouns. They can refer to any kind of typical word combination, for example verb + noun (e.g. **arouse someone’s interest, lead a seminar**), adverb + adjective (e.g. **fundamentally different**), adverb + verb (e.g. **flatly contradict**), noun + noun (e.g. **a lick of paint, a team of experts, words of wisdom**). There is much more about different grammatical types of collocation in Unit 3.

Phrasal verbs (e.g. *come up with, run up, adhere to*) and compound nouns (e.g. *economy drive, stock market*) are sometimes described as types of collocations. In this book we consider them as individual lexical items and so usually include them here only in combination with something else, e.g. **come up with a suggestion, run up a bill, adhere to your principles, go on an economy drive, play the stock market**. However, it is not always easy to separate collocations and compounds and, where they are useful for learners as an important part of the vocabulary of a topic, we include some compounds in this book too.

It can be difficult for learners of English to know which words collocate, as natural collocations are not always logical or guessable. There is, for example, no obvious reason why we say **making friends** rather than *getting friends* or **heavy rain**, not *strong rain*.

Learners also need to know when specific collocations are appropriate. This is usually referred to by linguists as knowing which register to use. **Alight from a bus** is a formal collocation used in notices and other official contexts. In everyday situations we would, of course, always talk about **getting off a bus**. There is more about register and collocation in Unit 6.

## B

## Why is it important to learn collocations?

An appreciation of collocation will help you to:

- use the words you know more accurately  
In other words, you’ll **make** (NOT *do*) fewer **mistakes**.
- sound more natural when you speak and write  
By saying, for example, **of great importance**, rather than *of big or high importance*, you won’t just be understood, you will – quite rightly – sound like a fluent user of English.
- vary your speech and, probably more importantly, your writing  
Instead of repeating everyday words like *very, good or nice*, you will be able to exploit a wider range of language. You would gain more marks in an exam, for instance, for writing *We had a blissfully happy holiday in a picturesque little village surrounded by spectacular mountains* than for *We had a very happy holiday in a nice little village surrounded by beautiful mountains*, even though both sentences are perfectly correct.
- understand when a skilful writer departs from normal patterns of collocation  
A journalist, poet, advertiser or other inventive user of language often creates an effect by not choosing the expected collocation. For example, a travel article about the Italian capital might be entitled *No place like Rome*, a reference to the popular expression **There’s no place like home**.

# Exercises

## 1.1 Match the two parts of these collocations.

- |                 |                    |
|-----------------|--------------------|
| 1 adhere to     | rain               |
| 2 arouse        | different          |
| 3 blond         | of wisdom          |
| 4 come up with  | your principles    |
| 5 flatly        | an economy drive   |
| 6 fundamentally | a seminar          |
| 7 go on         | someone's interest |
| 8 heavy         | contradict         |
| 9 lead          | hair               |
| 10 a lick       | the stock market   |
| 11 play         | of paint           |
| 12 words        | a suggestion       |

## 1.2 Correct the underlined collocation errors with words from the advice in B. Be careful, you might find the words in the text, as well as in the examples.

- 1 Exam candidates often make faults in their use of verbs like *do, make, go* and *get*.
- 2 Try to use a longer range of language when you write.
- 3 Exam candidates who use collocations well gather better marks.
- 4 You have to know what normal collocation patterns are before you can lose them.
- 5 The writer used colloquial language to form an effect.

## 1.3 Look at these sentences from a hotel brochure. Improve the style by replacing the words in italics with the word in brackets that forms the best collocation. (Use each word only once.)

- 1 Our new family hotel is set in a *nice* location and all the rooms have *nice* furnishings and *nice* views over the surrounding countryside. (stylish / secluded / breathtaking)
- 2 Visitors will enjoy the *good* atmosphere in either of our *good* dining rooms, both serving *good* food to both residents and non-residents. (delicious / relaxing / spacious)
- 3 We organise tours to *beautiful* surrounding villages where you'll have the opportunity to take some *beautiful* photographs and sample the *beautiful* local cuisine. (mouth-watering / picturesque / stunning)

## 1.4 Write F (formal), I (informal) or N (neutral) in the brackets at the end of each sentence. In each pair of sentences, there is one neutral sentence and one formal or informal sentence. Underline the collocations that are noticeably formal or informal.

- 1 a Passengers must not alight from the bus while it is in motion. ( )  
b Passengers must not get off the bus while it is moving. ( )
- 2 a Let's grab a bite before we get down to work. ( )  
b Let's have something to eat before we start work. ( )
- 3 a SFTS has the right to bring the agreement to an end with three months' notice. ( )  
b SFTS reserves the right to terminate the agreement with three months' notice. ( )
- 4 a She thinks her boyfriend is planning to pop the question tonight. ( )  
b She thinks her boyfriend is planning to ask her to marry him tonight. ( )

## 1.5 Correct the four collocation errors in this paragraph.

The yellow-haired boy said he had joined the English class to get some new friends. He also said that he wanted to learn about collocations because it would be of big importance in helping him to do fewer mistakes when writing in English.

## A

## Strong collocations

A strong collocation is one in which the words are very closely associated with each other. For example, the adjective **mitigating** almost always collocates with **circumstances** or **factors**; it rarely collocates with any other word. *Although she was found guilty, the jury felt there were mitigating circumstances.* [factors or circumstances that lessen the blame]

Here are some other examples of strong collocations.

collocation	comment
<b>Inclement weather</b> was expected.	(very formal) = unpleasant weather <i>Inclement</i> collocates almost exclusively with <i>weather</i> .
She has <b>auburn hair</b> .	<i>Auburn</i> collocates only with words connected with hair (e.g. <i>curls, tresses, locks</i> ).
I felt <b>deliriously happy</b> .	= extremely happy Strongly associated with <i>happy</i> . Not used with <i>glad, content, sad</i> , etc.
The chairperson <b>adjourned the meeting</b> .	= have a pause or rest during a meeting/trial <i>Adjourn</i> is very strongly associated with <i>meeting</i> and <i>trial</i> .

## B

## Fixed collocations

Fixed collocations are collocations so strong that they cannot be changed in any way. For example, you can say *I was walking to and fro* (meaning I was walking in one direction and then in the opposite direction, a repeated number of times). No other words can replace *to* or *fro* or *and* in this collocation. It is completely fixed. The meaning of some fixed collocations cannot be guessed from the individual words. These collocations are called idioms and are focused on in the book *English Idioms in Use*.

## C

## Weak collocations

Weak collocations are made up of words that collocate with a wide range of other words. For example, you can say you are **in broad agreement** with someone [generally in agreement with them]. However, *broad* can also be used with a number of other words – **a broad avenue, a broad smile, broad shoulders, a broad accent** [a strong accent], **a broad hint** [a strong hint] and so on. These are weak collocations, in the sense that *broad* collocates with **a broad range** of different nouns.

Strong collocations and weak collocations form a continuum, with stronger ones at one end and weaker ones at the other. Most collocations lie somewhere between the two. For example, the (formal) adjective *picturesque* collocates with *village, location* and *town*, and so appears near the middle of the continuum.

## D

## Types of collocations in this book

The collocations in this book are all frequently used in modern English. We used a corpus (a database of language) to check this. We have also selected the collocations which will be useful to you as an advanced learner. We pay most attention to those that are not predictable. A *broad avenue*, for example, would be predicted by any student who knows *broad* and *avenue*. However, the use of *broad* to mean *strong* as in **a broad accent** is more difficult to predict.

**Finding collocations**

You can expand your collocation vocabulary by training yourself to notice collocations whenever you read. Note the collocations in these three examples of texts from different sources – a newspaper feature, a film review and a website for London tourists.

**LOCAL SPOTLIGHT**

As a **newly qualified** teacher at a comprehensive school in Wiltshire, every day Joe **faces the challenge** of **gaining the respect** of a class of 15-year-olds. Joe, 26, admits it is a **tough challenge** but thinks he is **winning the battle**. Joe, who teaches English and media studies, and coaches a school football team, will **qualify fully** in July, **pending the results**<sup>1</sup> of his lesson assessments. With this **milestone passed**<sup>2</sup>, and the increased financial stability it will bring, Joe will **turn his thoughts to** buying his first home.

STARRING

She has a **gift for languages**, which brings her to the UN. She wants to **make a difference**. She is idealistic in that single-minded, dedicated manner associated with freedom fighters. Silvia (Nicole Kidman) remains an enigma. When Tobin Keller (Sean Penn) begins to investigate her, he is faced with a blank sheet. She is beautiful, blonde, lissom and lithe. She lives alone, has no lover, rides a Vespa throughout New York and works all day, **providing simultaneous translation** for delegates. She has an odd accent, which, like everything else about her, is **difficult to pin down**<sup>3</sup>.

<sup>3</sup> hard to fix or place

Covent Garden's buskers and jugglers **provide** no-cost **entertainment** in a car-free setting, and you've always **got the chance** of being plucked from the crowd to help out with a trick. Don't **underestimate the value** of London's public transport as a **source of fun**, either. The #11 double-decker from Victoria, for instance, will trundle you past the Houses of Parliament, Trafalgar Square and the Strand on its way to St Paul's Cathedral for a modest sum. The driverless Docklands Light Railway is another guaranteed **source of amusement** – **grab a seat** at the front of the train and pretend to be the driver, then **take a boat** back to the centre of town from Greenwich.

Remember you will also hear collocations in conversations, lectures, songs and films. Try to get into the habit of recording any interesting collocations that you notice.

## B

**Recording collocations**

When working on collocations in a text, use your dictionary to find more relating to one or both parts of the original collocation. You can record strong collocations in collocation forks:

and weak ones in collocation bubbles (because there are so many more of them):

**What is register?**

Our use of language changes according to the situation that we are in. If your close friend hosts a party, you could say, ‘Thanks for the party. It was a blast.’ (very informal) However, if your boss was the host, you would probably say, ‘Thanks for the party. I really enjoyed it.’ (neutral) In this example, *neutral* and *very informal* are both examples of register.

The register of most language is neutral (it can be used in any situation). However, register can also be formal, informal, characteristic of a certain professional field (e.g. legal, journalistic or media) or specific to official notices and forms.

Our choice of register depends on **what** we are talking about (business, the news, the neighbours), **who** we are talking to (friends, strangers, figures of authority) and **how** we are talking to them (in a letter, in an email, in public, in private). Study the table below and notice how different words and phrases are used to describe the same situation.

example	register	comment
The police are <b>investigating</b> / <b>looking into</b> the arms deal.	neutral	Either version would not seem out of place in any spoken or written contexts.
The cops are trying to <b>dig out info</b> <b>about</b> the arms deal.	informal	Phrasal verbs are often an informal alternative – although some are neutral.
The police are <b>conducting an investigation</b> <b>into</b> the arms deal.	formal	Longer words of Latin or Greek origin often indicate more formal language.
Police to <b>probe</b> arms deal	neutral, journalistic	<i>Probe</i> is typical of newspaper headline style.
The arms deal may be <b>subject to police investigation</b> .	formal, legal and official	<i>Subject to investigation</i> is typical of a bureaucratic or legal style.

Be careful not to think of formal language as written and informal language as spoken. There is a lot of overlap. For example, markedly formal language is most typical of official or academic writing and official legal or bureaucratic speech. Informal language is typical of conversation, personal letters and emails, messages on social media and some journalism.

## B

**Formal versus neutral collocations**

formal (from official documents)	neutral (spoken)
Students must <b>submit</b> their <b>assignments</b> by 1 May.	‘You have to <b>hand in</b> your <b>assignments</b> by 1 May.’
Students may <b>request an extension</b> after <b>consulting their tutor</b> .	‘You can <b>ask for an extension</b> after you’ve <b>talked to / had a word with your tutor</b> .’

## C

**Informal versus neutral collocations**

That film was **totally awesome!** (mainly used by teenagers, predominantly US) [neutral equivalent: absolutely amazing/fantastic]

That party was well good! (*Well* used to mean ‘very’/‘really’, mainly by younger UK speakers.)

I **haven’t a clue / the foggiest idea** what you mean. [neutral equivalent: I have no idea]

We can **grab a snack** before the meeting if you’re hungry. [neutral equivalent: have a snack]

**Tip**

Make a note in your notebook if a collocation is very formal or informal in register.

# Exercises

come	clear	do	feel	get	run	take	write

Doctor: What can I (1) ..... for you, Mr Wilson?

Doctor: Right. I don't think it's anything serious. I'll (7) ..... you out a prescription for some lotion which should help to (8) ..... up the rash.

- 5.4** Look at how the doctor describes the case in his records using more technical language. Choose the correct word from the choices provided. Use a dictionary to help if necessary.

A patient (1) *presented / represented* this morning with an (2) *elevating / elevated* temperature. He was also (3) *exposing / exhibiting* a neck rash. He further (4) *complained / grumbled* of an (5) *inability / impossibility* to concentrate.

When we speak metaphorically, we use words in a non-literal sense. For example, when we say a writer **casts light on a situation**, we mean that the writer helps us understand it more clearly, in the same way that putting a light on in a dark room helps us see more clearly.

## B

## Metaphors based on weight

**Heavy** can be used to mean serious or difficult, as in **heavy responsibility**. A **heavy burden** can be either something heavy to carry or a difficult responsibility to deal with, while a **heavy book** can be either one that weighs a lot or one with difficult content. A **heavy tome**, however, would only be used to mean a book with difficult content. Similarly in **heavy matters** or **heavy problems**, **heavy** means difficult and serious.

**Light**, the opposite of **heavy**, can also be used metaphorically to mean carefree or lacking in seriousness. So **light reading** is reading material that is not serious. If you do something with a **light heart**, you feel carefree and happy.

If someone has a **slim chance** of doing something, there is a chance, but it is small. **Fat chance** (very informal) means almost no chance.

## C

## Metaphors based on movement

James did a lot of partying in his final year and **ran into difficulties** with his course. His father was **hopping mad**<sup>1</sup> when he only just managed to get his degree. However, when he left university he **walked straight into a job**<sup>2</sup> in an excellent company. Some people **jumped to the conclusion** that this was because he'd started going out with the managing director's daughter. His mother worried that, if their relationship **hit the rocks**<sup>3</sup>, he would **run into trouble** at work too.

<sup>1</sup> (informal) extremely angry

<sup>2</sup> got a job very easily

<sup>3</sup> ended (metaphor based on a boat being destroyed on rocks)

Tip

Adverbs are often used before adjectives and verbs either to strengthen their meaning (intensifying adverbs) or to weaken it (softening adverbs).

Her comments were **deeply offensive**. (intensifier – very/extremely)

Her comments were **slightly offensive**. (softener – a little bit)

## A

### Intensifying adverbs

Notice how intensifying adverbs are used to mean ‘extremely’ or ‘completely’ in the sentences below. The expressions marked with \* are very informal.

## C

### Alternatives to very

There are a variety of words that you can use as alternatives to *very* which collocate with most adjectives, for example: *really, extremely, terribly, incredibly* and *awfully*. Other adverbs collocate with certain adjectives and verbs but not with others.

alternatives to <i>very</i>	✓	NOT
highly	unlikely, educated, recommended	appreciate, influence, interesting
strongly	influence	appreciate
greatly	appreciate, influence	
utterly	absurd, ridiculous	sorry, busy, glad, lonely

**A****EMILY**

In my mid-twenties I joined the staff of a language school. The pay wasn't brilliant but I could make a living<sup>1</sup> and there were many aspects of the job that I enjoyed. The other members of staff were nice and I enjoyed teaching the students. A few years later, after returning from maternity leave, I decided to go part-time. Luckily I was able to do a job-share<sup>2</sup> with another woman who had a small child. Then the school began to go through a difficult period and had to lay off staff<sup>3</sup>. I decided to go freelance<sup>4</sup>. I had managed to build up a network of contacts and this gave me a good start. I soon had a substantial volume of work – private students and marking exams – and was able to earn a good living.

When I returned, I went back to my old job and also took up the post<sup>4</sup> of editor of a leading medical journal. I held that position for a number of years. I'm now hoping to go abroad again and so am letting everyone know that I am open to offers.

I felt I needed to get my priorities right<sup>5</sup>. I decided that other aspects of my life should take priority over<sup>6</sup> my work. I handed in my resignation and moved to the country.

## What is marketing?

The Marketing Expert

Home | **Definition** | Key terms | Case studies

Marketing is the process of studying and defining the needs of **target customers** as well as promoting products to fulfil those needs. For example, if your company produces ice cream, you need to learn as much as you can about **consumer demands** and **preferences**. (What flavours do they like? What size pack do they prefer?)

*How do companies find out about their customers?*

Companies **conduct / carry out market research**. They may do this through questionnaires, surveys or **focus groups**<sup>1</sup>.

*What do companies need to know about their customers?*

They want to find out about **consumer behaviour** and **buying habits** – for example, where do they shop and what do they buy? They may also want to find out the age and **income bracket**<sup>2</sup> of their customers. This helps them to create a **demographic profile**<sup>3</sup> of a typical customer. Building up a picture of the customer is all part of **customer relationship management**<sup>4</sup> (**CRM**).

*What do companies do with this information?*

Companies will use the information to make decisions about **product development** and **design**. It also helps them to look at **market segmentation**<sup>5</sup> so that they can target certain areas of the market or certain types of consumers. It also helps companies to know what their own **market share** is.

<sup>1</sup> a group of potential customers who give their opinions about a product, brand, packaging etc.

<sup>2</sup> a section of the population classified according to their level of income

<sup>3</sup> information such as the age, gender and occupation of a group of people

<sup>4</sup> the strategies that companies use to analyse and manage their contact with customers

<sup>5</sup> the way the market is divided into different consumer groups and the differences between them

## Tip

A *customer* is a person who *buys* a product and a *consumer* is someone who *uses* a product – often it can be the same person, but not always.

## Getting the message across

What makes a successful **marketing campaign**? What's the best way to **reach** the **target audience**? Justine Blake, Head of Marketing for a major fashion retailer, explains more:

'We use a number of different ways to communicate with our customers. There are the more traditional channels like TV and billboard advertising, as well as **product placement**<sup>1</sup>. But these days we're also doing much more **guerrilla marketing**<sup>2</sup>. For example, in one recent campaign we installed special "mirrors" on bus shelters, that showed people what they would look like wearing some of our latest designs.'

'We have our own **in-house marketing team** but we also use an **advertising agency** which specialises in that type of work. Our **brand identity**<sup>3</sup> is very important and one of our aims is to **build brand awareness**<sup>4</sup>. We want customers to feel confident about the quality of our clothing and so increase **customer satisfaction** and **loyalty**.

'Our latest online campaign featured a video about a young girl and her grandmother going clothes shopping together. It was a lovely story about having positive role models. It **went viral**<sup>5</sup> and was shared on social media all over the world! Of course, the more **free airtime**<sup>6</sup> or **press coverage**<sup>7</sup> we can get, the better. In the fashion world, **celebrity endorsement**<sup>8</sup> can also have a huge impact.'

'Ultimately, we want to **engage with** our **customers**<sup>9</sup> and bring them the best products we can.'

<sup>1</sup> a company pays for their product to be featured in a film

<sup>2</sup> a company promotes their products in an unconventional way, often on a low budget

**Shopping online or on the high street**

Most companies **carry out surveys**<sup>1</sup> to find out what customers or potential customers feel about their products and services. I answered one recently about **online shopping**. I personally much prefer to **go shopping** on the high street rather than to shop on the internet. You get a much better impression of whether something is good **value for money** or truly **fit for purpose**<sup>2</sup> when you can touch it. And I feel if you have a problem with a purchase, it's easier to go back and **make a complaint** if you've bought something from a shop. But shopping online has its advantages, and many companies **offer** you **a discount** when you **place an order** online. And, of course, lots of online companies have plenty of **regular customers** and plenty of **satisfied customers**. I suppose the bottom line is that it's good for us as consumers to have as much **healthy competition** as possible.

<sup>1</sup> or **do surveys**, NOT **make surveys**   <sup>2</sup> good at doing what it is supposed to do

## B

**Complaining about service**

I ordered a skirt online and I'm furious. On their website they promise **prompt service**. In fact they said they offered **next-day delivery** but it took ten days to come. When I rang up to complain they **put me on hold** and then never got back to me! Then, when the skirt eventually arrived, the zip was broken. It's really **poor quality** – though the website says all their clothes are **top quality**. I'm going to **kick up such a fuss**<sup>1</sup>. Of course, I'll demand **a full refund**<sup>2</sup>, but I'd really like an apology as well. And I'll certainly **take my custom elsewhere**<sup>3</sup> in future.

<sup>1</sup> (informal) make a very forcible complaint

<sup>3</sup> not buy from the same place again

<sup>2</sup> ask for all my money back (NB NOT strongly demand because the verb *demand* cannot be made stronger in English – it is already strong enough)

It's expensive but isn't as crowded – even in **rush hour**.

PAOLA:

AKIKO:

Interviewer: So, Minister, we've been hearing a lot on the news recently about all the problems faced by commuters: **packed trains**<sup>1</sup>, **fare rises**, **train strikes**. What is the government planning to do?

Minister: Well, this government's policy has always been to **invest in infrastructure** and to **provide more local transport services** for the hard-working commuters of this country.

Interviewer: But for commuters **facing a** ten percent **hike**<sup>2</sup> in fares for services which are constantly **running late** or not at all, that policy doesn't seem to be working.

Minister: **Train operators** are re-investing the majority of their profits in new trains and better services and the government is supporting that. In addition, we are trying to **ease traffic congestion**<sup>3</sup> in big cities by restricting private car use and encouraging **car-sharing programmes** and **park-and-ride schemes**<sup>4</sup>. The **congestion charge**<sup>5</sup> in London has helped to reduce traffic and improve **air quality** and our road-building programmes have aimed to **alleviate bottlenecks**<sup>6</sup> in key areas.

Interviewer: I'm glad you mentioned traffic. Commuters who drive also seem to be facing increasing difficulties, such as **road closures** and detours which in in turn cause **lengthy tailbacks**<sup>7</sup> and **bring traffic to a standstill**<sup>8</sup>. ## Decisions and solutions

Hans Brokaw, head of a company that manufactures garden furniture, is announcing to his senior staff **plans** he is **making** for the business to be exclusively online.

HANS BROKAW

As you know, for some time now we've been **toying<sup>1</sup>** with the idea of transferring all our business to online-only sales as a **long-term solution** to the problem of finding good retail outlets. You'll remember that at the last team meeting Rob **unveiled<sup>2</sup>** a **plan** to move the business to the web in three phases over nine months. And Philippa did a great job **drumming up support<sup>3</sup>** for the move among the sales and marketing people. Since then, as you also know, we've had a **slight change of plan**, and, **acting on a suggestion<sup>4</sup>** from the logistics team, we've now decided that the move should happen over 12 months. In order to **implement<sup>5</sup>** such a **plan**, we need to **draw up a schedule** and **stick to<sup>6</sup>** that **schedule**.

So I'd like to make a **tentative suggestion<sup>7</sup>**. Before we **launch the scheme**, I think we should invite the web designers to come here and take us through the process from their side. That will give us the opportunity to **exercise greater control** over things. I don't think we should just **leave everything to their discretion<sup>8</sup>**. I'm just aware of how important it's going to be to **cover every eventuality<sup>9</sup>** before we commit 100% to going online.

We propose to end our relationship with the garden centres where we currently sell. We've reached this decision **after careful consideration**. We do believe that realistically it's the only **option open to us**. The deciding factor was losing our biggest customer – the Greenway garden centre chain. After that, we really had no choice.

I usually **think highly** of Joel Hanson's films but this one, based on a novel by Slevan Gorsky, is a **dismal failure**. In spite of the **all-star cast**, the film just didn't **hold my attention** the way the book did. I was a college student when I read it, but it made a **lasting impression**<sup>8</sup> on me. It **fired my imagination** more than any other book has ever done, and **awakened my interest** in Russia in the 1930s so much that my poor old bookshelves are groaning with books on Russian history! The film, however, simply failed to **create**<sup>9</sup> **the atmosphere** of Leningrad in the 1930s which the book achieved so successfully.

## Health and safety regulations

Dear colleague,

As you are probably aware, the government has recently **passed** new **laws** relating to health and safety in the workplace. These new **regulations** have been **introduced**<sup>1</sup> to **standardise procedure** in workplaces across the country and ensure that employers **adhere to standards**.

The enclosed guide details the steps you need to take in order to **comply with** these new **laws**. All employers **have an obligation** to **carry out a risk assessment**<sup>2</sup>. Failure to do so will leave us **in breach of the law**<sup>3</sup>. The purpose of the risk assessment is to **minimise danger** to employees and also to make it easier for employers to **satisfy the requirements** of the regulations.

All department heads **have an obligation** to read the information in the guide carefully. Please do so, and if you have any further questions, I will be happy to answer them.

## Planning permission

If you wish to build, say, an extension to your house, it is **absolutely essential**<sup>1</sup> to **seek permission**<sup>2</sup> to do so. If your **plan is approved**, then you will be **granted permission**<sup>3</sup> to build. But it is becoming more difficult to **obtain permission**<sup>4</sup> as the government has **introduced new legislation** which has **tightened controls**<sup>5</sup>. It can take quite some time after **putting in an application** for **permission to be given**. This is because the planning officers have to ensure that your plans do not **infringe the regulations**<sup>6</sup> relating to building in your area.

Be wary of treating the planning officers as **faceless bureaucrats**<sup>7</sup>; they are **in a position of considerable authority**, though some of them are more vigorous about **exercising authority**<sup>8</sup> than others. Some will be prepared to **cut through the red tape**<sup>9</sup> for you, whereas others might seem to be doing all they can to block your plans, especially if they think you are trying to **flout the rules**<sup>10</sup>.

<sup>1</sup> NOT very essential

<sup>7</sup> used as an insult to officials, suggesting that they lack character

<sup>2</sup> (formal) ask for permission

<sup>8</sup> (formal) using that authority

<sup>3</sup> (formal) given permission

<sup>9</sup> deal quickly and effectively with bureaucratic procedures

## Climate change and its consequences

Here is an interview with Gary Prime, an American rock star known for his support of environmental campaigns, who is visiting London.

Interviewer: Would you agree that climate change is the most urgent issue facing us today?

Prime: Definitely. You only have to look at the changing **weather patterns** in many parts of the world. It's **absolutely vital** that we **change our ways** before it's too late. Parts of Europe which used to be cooler now experience intense, **searing heat**<sup>1</sup>, and **temperatures soar** above the average every summer. Other areas suffer **widespread flooding** on a regular basis. We can't continue in this way without there being **dire**<sup>2</sup> **consequences**.

Interviewer: So what can people do in the face of this **irreversible climate change**?

Prime: Well, for a start we can all **reduce our carbon footprint**<sup>3</sup> by flying less, and reduce our **food miles**<sup>4</sup> by buying local produce. Some airlines have schemes now for **offsetting carbon emissions**<sup>5</sup>.

Interviewer: Flying's only one part of it, though. Most of the problems come from **vehicle emissions** and power stations.

Prime: True, but there are things we can do about that too. Buy a **hybrid car**<sup>6</sup>, develop **alternative energy sources** for homes, **solar heating** for instance, and build more **offshore**<sup>7</sup> **wind farms**. Oil supplies will **run dry**<sup>8</sup> within 50 years. **Renewable energy** can make a real difference. And politicians shouldn't be afraid of introducing **green taxes**<sup>9</sup> and incentives to encourage **eco-friendly design** in architecture. With sufficient will, we can **find a solution**.

Interviewer: Gary Prime, thank you for giving up your time for this interview.

Prime: No problem. I've got just enough time to catch my flight to Los Angeles.

## Budget speech

As we can all testify, this country's economy is strong and getting stronger.

Our measures to **curb inflation**<sup>1</sup> have proved highly successful. The **rampant inflation**<sup>2</sup> of the previous government is a thing of the past. Inflation currently stands at 2 percent. The strength of the **current economic climate** suggests that **interest rates** are unlikely to be raised again this year. This should help us to build up a culture of **investing for the long-term**.

This government has **steered the economy** through seven years of **uninterrupted economic growth**; a trend which is set to continue with our major success in **stimulating growth**. And in the latest quarter, the economy has been growing at an annual rate of 2.5 percent.

All indicators show that **industry is thriving**<sup>3</sup>. But we are particularly proud of the **steady growth** experienced by small businesses. We have made it our aim to **safeguard their interests**<sup>4</sup> and the healthy economy we have created has enabled them to **increase output**. The **plummeting profits**<sup>5</sup> caused by the previous government's misguided policies are now safely behind them.

Our goal is to establish world-class public services through investment and reform in order to ensure that taxpayers receive real **value for money**. **Public spending** goes to provide strong and dependable public services. These are vital to **extend opportunity**, tackle **social exclusion**<sup>6</sup> and improve people's life chances.

The **taxes** that we **levy**<sup>7</sup> allow us to **allocate resources** to achieve that goal. And we have **met with** considerable **success**<sup>8</sup>. In particular, we must now **build on the success**<sup>9</sup> of the climate-change **levy we introduced** last year.

Another of our goals is to win the battle against the **black economy**. If left **unchecked**<sup>10</sup>, the black economy – I think here particularly of the loss to our economy of **undeclared earnings**<sup>11</sup> and other tax-evasion practices – will **push up costs**<sup>12</sup> and lead to **rising unemployment**. This government is committed to its eradication.

## Expressing views about crime and punishment

Look at these extracts from calls to a radio phone-in programme called *Your Call to Jeremy*, which on this occasion is about crime and punishment.

Hello, Jeremy. I want to know why financial criminals in the City always seem to **escape punishment** while poor people always seem to receive **custodial sentences**<sup>1</sup> even for **committing minor offences**.

My view is that if someone is **put on trial** and is **found guilty** and **given a sentence**, then they should have to **serve out<sup>2</sup> their sentence**. Releasing someone early for **good behaviour** is a complete nonsense.

Jeremy, I'd like to point out that there have been a couple of serious **m miscarriages of justice**<sup>3</sup> recently and people don't seem to realise how damaging this is. No one should **face trial** on the basis of **unreliable evidence** or **trumped-up charges**<sup>4</sup>.

We're facing **soaring<sup>5</sup> crime rates** in this city and it's about time the criminals were **brought to justice**. And I'm sick of hearing about **extenuating circumstances**<sup>6</sup> – that someone had a deprived childhood, or they're not fit to **stand trial**. Rubbish!

<sup>1</sup> a sentence to be served in a prison or similar institution

<sup>4</sup> invented and false accusations

<sup>2</sup> serve the full amount of time

<sup>5</sup> rising very fast

<sup>3</sup> situation where innocent people are found guilty

<sup>6</sup> circumstances that lessen the blame, also **mitigating circumstances**

A key witness **gave evidence** today in the Misthorpe murder trial. The witness claimed to have seen the accused leaving Ms Bartram's house. **The trial was adjourned<sup>1</sup> until** March 7th. The accused, 27-year-old Liam Grout, was **remanded in custody**<sup>2</sup>.

In a **unanimous verdict**<sup>3</sup> today in Raylton District Court, Clare Irene Wilson, 37, was **found not guilty** of murder. The judge said the prosecution had failed to prove **beyond reasonable doubt** that Ms Wilson was guilty.

Mr Hanry had **denied all knowledge** of the alleged fraudulent business deal. His lawyers attempted to show that Derek Yardley was an **unreliable witness**. Despite suggestions that the judge might **dismiss the case**<sup>4</sup>, he found in favour of Mr Hanry and **awarded damages**<sup>5</sup> to him.

Mary Jones was released this morning after her lawyers successfully **contested the verdict**<sup>6</sup> which sentenced her to prison for three years. The judge, Mr James Egdon, **overturned the verdict** in the Court of Appeal. Mary Jones herself did not **appear in court** but later said that she felt **justice had been served**.

<sup>1</sup> was suspended till a later time or date

<sup>5</sup> ordered the organisation or person who has been responsible for causing injury or loss to pay money to the victim as compensation

<sup>2</sup> send to prison until the trial begins or continues

<sup>6</sup> disagreed with the verdict and tried to change it

<sup>3</sup> verdict which all the decision makers agree to

<sup>4</sup> decide that the case is not worth considering

## Talking about space

Hi Liz,  
 How frustrating house-hunting is! We've just looked at a city-centre flat near Oliver's new job. The estate agent's ad said it was 'spacious'. Ha, ha! How anyone could live in such a **confined space**, I don't know. It was tiny. I know you have to expect **cramped conditions** in the city centre but this was ridiculous. We're **short of space** already where we are now, what with the new baby and everything. Kids **take up a lot of space**, don't they?  
 Love,  
 Emma

Dear Emma,  
 Sorry to hear of your problems. Yes, kids do seem to **take up a lot of room**. But listen, a friend of ours is selling her house in town and moving to Australia. It's not huge, but there's **ample<sup>1</sup> room** for a family with two children. There's even a garden, and though it's not a **vast expanse**, it's very pleasant. There's a shed on it at the moment, which is a bit of a **waste of space<sup>2</sup>**, but that could be removed to **leave room** for a play area. There's no garage, but it's on a quiet street and there are always plenty of **vacant parking spaces**. Let me know if you're interested and I'll have a word with her.  
 Best,  
 Liz

<sup>1</sup> more than enough

<sup>2</sup> bad use of space when there is a limited amount of it

Note that you can say **ample space/room**; **leave space/room**; **short of space/room** and **take up a lot of space/room**. However, you can only talk about something being a **waste of space** (NOT a waste of ~~room~~).

## Talking about time

In these magazine extracts, notice the useful collocations for talking about time.

Pop bands come and go **over the course of time<sup>1</sup>**, but few bands have **made such a lasting contribution** as The Beatles. They will **go down in history<sup>2</sup>** as possibly the greatest pop musicians of all time. Their music represents

the **golden era<sup>3</sup>** of British pop in the 1960s, and every one of their songs **brings back memories** of that unforgettable time. Their music is all **preserved for posterity<sup>4</sup>** in this collection.

<sup>1</sup> as time passes

<sup>3</sup> can also be **golden age**; period of time when a particular art, business,

<sup>2</sup> be remembered

etc. was very successful

<sup>4</sup> (formal) kept for people in the future

Buildings from a **bygone era<sup>5</sup>** are the main attraction at Castmere Folk Village. Homes, shops, even a cinema, have been **restored to their former glory<sup>6</sup>** in a massive project that has now reached completion.

<sup>5</sup> (literary) a time in the distant past

<sup>6</sup> glory here means 'beauty'

For many people, the 1970s are nothing more than a **dim and distant<sup>7</sup> memory**, but in the **decades** that have **elapsed**, those of us born in the '70s begin to realise how that decade, which is still well **within living memory** for much of the population, has **shaped our destiny**. Our parents worked with pen and paper, or machines, or with their hands. They couldn't have known how computers would change everything in the **not-so-distant future<sup>8</sup>**. All indications are that many more changes will help to **shape** our children's **lives** in the **foreseeable future<sup>9</sup>**.

<sup>7</sup> remembered slightly, but not very well

<sup>9</sup> as far into the future as you can imagine or plan for

<sup>8</sup> not the immediate future but relatively near

### A Choosing your approach

#### COMPLETING A TASK – HOW TO DO IT

When you need to work out the easiest way to do something, you have to **explore different ways** of approaching the task. Sometimes there will be many **feasible<sup>1</sup> alternatives** to consider and sometimes there will only be one or two **viable<sup>2</sup> options**. You need to **enlist the help** of people to give you advice before you decide on which **method to adopt**.

The best advice is to take a **step-by-step approach**: **break the task down** into stages, so that you are dealing with small, **manageable chunks**. This way you will soon find that something you thought was hard is in fact **simplicity itself<sup>3</sup>**. But be careful, don't always take what looks like the **easy option**. Think first. At the end, you can feel proud that you didn't just **take the easy way out<sup>4</sup>**.

<sup>1</sup> possible

<sup>2</sup> workable

<sup>3</sup> extremely simple

<sup>4</sup> do what is easiest but not what is best – which may mean avoiding doing anything at all

### B Ways of remembering

Notice the collocations in this text introducing techniques for improving your memory.

#### WAYS OF REMEMBERING

A trained memory is an **immense asset<sup>1</sup>**, particularly in public life. Mnemonics are systems we use to help us remember complex information easily, and people who use them can recall things with an **amazing degree of accuracy**.

The Ancient Greeks **perfected<sup>2</sup>** a number of mnemonic **techniques**, some of which are still used today, for example, using the first letter of each item to form a word that will help you remember the whole list of items. For instance, you might remember the female first name ADA to help you recall the phrase **amazing degree of accuracy**. Or you might think of the word BAG, which will give you three colours that collocate with *hair* (*blond*, *auburn*, *ginger*).

A **simple rule** of all memory training systems is the idea of 'Initial Awareness'. This works in a **straightforward<sup>3</sup> way**. The **basic principle** is that the system helps you **concentrate the mind** on whatever you are trying to remember for just long enough to force Initial Awareness.

All memory training systems are **perfectly simple**. Once you have **taken the time** to learn them, you will be able to **instantly recall** any new **items of information** you want to, **with remarkable ease**. You may find it a **steep learning curve<sup>4</sup>**, but I assure you that it is **worth the effort**.

<sup>1</sup> something of great value

<sup>2</sup> the verb is pronounced /pɜː'fekt/

<sup>3</sup> easy to understand or simple

<sup>4</sup> something which is difficult to learn and takes a lot of effort

#### Tip

Do you know any mnemonic techniques to help you learn vocabulary? If possible, share them with other students.

**A Comparing two places**

Emily has been offered two different jobs. The jobs are **fundamentally similar** but they are in different towns – Alton and Belville. The two towns **bear** very **little resemblance to**<sup>1</sup> each other. Alton is a small town by the sea; Belville is **entirely different** as it is a large industrial town. Alton is a beautiful old town which attracts a lot of tourists. This is **in marked contrast to** Belville, which is a rather ugly town. There is a **wide variation** in the cost of accommodation in the two towns.

There is also a **world of difference** in the entertainment on offer in the two places. Because there is a **clear distinction** between the types of people who live in each place – there are far more young people in Belville – there is a **yawning gap**<sup>2</sup> between what the cinemas and theatres show. Belville tends to have a lot of foreign films and original new plays, and those are much more to Emily's taste. The options for eating out also **differ widely**. Although Alton is smaller, it has a lot of good restaurants, though they do tend to be rather expensive. Belville is the **exact opposite**. It has a small number of relatively inexpensive restaurants.

To sum up, Alton and Belville are in many respects **polar opposites**<sup>3</sup>. Emily is finding it hard to make up her mind. As soon as she decides that **the advantages** of Alton **outweigh its disadvantages**<sup>4</sup>, then someone reminds her of the other **side of the argument**. Which of these two **strikingly different** places do you think she should decide to move to?

<sup>1</sup> don't look at all like

<sup>3</sup> extreme opposites

<sup>2</sup> an enormous difference

<sup>4</sup> are stronger than the disadvantages

**B Finding a balance**

Tom: How's work going these days, Karl? Are you still at the bank?

Karl: No, I decided to do something **fundamentally different** last year and retrained as a teacher.

Tom: Wow! That's a bit of a change! Your salary as a teacher surely **doesn't bear comparison with**<sup>1</sup> what you got as an investment banker.

Karl: Yes, but in other respects teaching **compares** very **favourably with** banking. I find it very rewarding – the financial advantages of banking **pale in comparison**<sup>2</sup>.

Tom: So, what appeals to you so much about teaching?

Karl: Well, a teaching friend of mine once **drew a comparison between** teaching and gardening. Teachers tend children in much the same way as gardeners tend flowers. I love gardening, so perhaps that's why I love teaching so much!

Tom: But lots of people say it's a very stressful job these days.

Karl: Perhaps. When I first started, I found it hard to **strike the balance between** being firm and being friendly. I wanted to be my pupils' friend but I soon learnt that you can never totally **bridge the gap** between pupil and teacher.

Tom: Yes, I guess there's a **subtle distinction**<sup>3</sup> between being friendly and being weak.

Karl: That's right. Anyway I think I've got the balance right now and I have no regrets at all about my career change – despite the **growing disparity**<sup>4</sup> between what I earn now and the salaries of my ex-colleagues still at the bank.

<sup>1</sup> can't be compared with

<sup>3</sup> also subtle difference

<sup>2</sup> seem unimportant

<sup>4</sup> increasing difference

**Political interviews**

- Interviewer: Despite the fact that you **gave repeated assurances** that you would not raise taxes, you seem to have **broken your promise** and raised five different taxes. Can you **offer an explanation** for why this happened? Haven't you **betrayed the trust** of the voters?
- Politician: I **reject that charge** completely. We have **kept our manifesto promise** and not raised the basic rate of income tax at all.
- Interviewer: Yes, but you've raised indirect taxes instead, so, in effect, you've **gone back on<sup>1</sup> your promise** of no tax increases, have you not?

(The students are silent.)
- Tutor: Well, let me **frame<sup>1</sup> the question** differently. Do politicians genuinely communicate directly with the public? Zoë, what do you think?
- Zoë: Not really. It's just soundbites on TV, isn't it? They hardly ever meet ordinary people face to face. They don't mind **fielding<sup>2</sup> questions** from journalists, they're used to that, but that's not the same as **confronting the issues** directly with real people.
- Tutor: Well, that's a **fair comment**. But what about politicians who have websites and write blogs? Are these better ways of **establishing communication** with people? Young people don't watch TV; they're on the web all the time.
- Paul: **With all due respect<sup>3</sup>**, I think you're **missing the point<sup>4</sup>**, if you don't mind me saying so. The politicians can still keep their distance. They don't have to **face a grilling<sup>5</sup>** from journalists or anyone if they just have a web page or a blog. In some ways it's worse than media interviews.
- Tutor: Fine. **I take your point<sup>6</sup>**. But no politician can meet everyone face to face, so communicating with as many people as possible using technology could be seen as more genuinely democratic, couldn't it?
- Imelda: Yes, but they become less accountable. If there's a scandal, they just **issue a denial**, and when did you last hear a politician **give a full apology** for getting things wrong? They **enter into a contract** with the people and if they **breach<sup>7</sup> that contract** they should be directly accountable, and not just at election time.
- Tutor: Right. Okay then. Get into groups and discuss ways in which politicians can be made more directly accountable. Okay? About ten minutes.

- 5 an effect, a hope or a change

**60.4** *Author's answers:*

- 1 I think that most people are more likely to find long-lasting happiness in a relationship than a career – though you can find plenty of happiness in a career too, of course.
- 2 I have profound admiration for a twelve-year-old girl I know who takes most of the responsibility for looking after her seriously disabled mother and who always appears cheerful.
- 3 Getting my first writing commission was a matter of pure luck, of bumping into someone at the right moment.
- 4 I enjoy both, but I think I derive more pleasure from reading.
- 5 I last experienced a sense of achievement when I finished writing the units for this book.
